

## FIP16Plus Safety Instruction

Please read the following safety notices before installing or using this unit. They are crucial for the safe and reliable operation of the device.

1. Please use the external power supply that is included in the package. If you need to use a power adapter provided by another manufacturer due to special circumstances, please ensure that the voltage and current of the power adapter comply with the specifications of this product.

2. Keeping your battery level in the middle battery range (30% to 70%) can help extend the battery life. Therefore, it is recommended that you:

- Disconnect the charger as soon as your phone is fully charged, to avoid charging for a long time or being in a high-power state for a long time to accelerate the aging of the battery and extend the service life of the battery.
- If the phone is idle for a long time, it is recommended to fully charge and discharge the device every 3 months and recharge it to 70% capacity. If a device remains powered off for an extended period, the battery may be damaged in the long run.

3. Extreme temperatures may affect the battery lifespan of your phone. Therefore, it is recommended that you:

- Please avoid exposing the phone to high temperatures or below 0°C or high humidity.
- Please avoid disposing of the battery in fire or exposing it to heat.
- Please avoid storing batteries in direct sunlight.
- Please avoid immersing the battery in water or getting it wet.

4. Batteries utilize a chemistry product. Therefore, it is recommended that you:

- Please avoid directly soldering the battery pack or battery.
- Please avoid reversing the positive and negative poles.
- Please avoid connecting the battery pack
- Please avoid transporting and storing batteries together with metal items such as necklaces and hairpins.

5. Soft aluminum packaging foil is easily damaged by sharp-edged parts such as nickel sheets, pins and needles. Therefore, it is recommended that you:

- Please avoid hitting the battery pack with any sharp parts, please avoid knocking or throwing the battery pack.

6. Please do not replace the battery yourself; To protect the environment, please dispose of batteries appropriately.

7. In the process of charging or using, if you find any anomalies (such as heat, smoke, odor, etc.), please stop using immediately and consult your authorized dealer for help.

This product may be used differently from the instructions due to software updates. The operation guide is for reference only.
