FLYINGVOICE

P2EXP

Multiple Function Color-screen Expansion Module

The Flyingvoice P2EXP is a versatile color-screen expansion module for P20/P20P/P20G/P21/P21P/P22P/P22G/P23G/P23GW and FIP15G Plus IP phones. It features dual 2.8-inch color LCDs for clear, intuitive visuals, combined with a user-friendly interface and advanced call handling capabilities. With three pages of 24 flexible buttons, it can support up to 72 multifunction keys, including BLF, SpeedDial, call forward, transfer, call park, and call pickup. P2EXP is ideal for receptionists, administrative assistants, and call center personnel, enabling easy monitoring of contacts and management of incoming calls.

Key Benefits

User-friendly Design

Flyingvoice P2EXP features dual 2.8-inch 320x240 color LCD screens, delivering clear and refined display quality. Each page features 24 dual-color LED keys and multi-functional icons, offering an intuitive user experience. Additionally, it features 3 page-turning keys with dual-color illuminated LEDs for fast switching pages. The screen brightness automatically adjusts with the host phone, ensuring a more comfortable and personalized experience.

Rich Visual Experience

Dual 2.8-inch 320x240 color displays provide a richer and more detailed visual experience. Programmable keys with dual-color LED indicators support colorful function icons for an enhanced user experience. Three independent page-turning keys with dual-color LEDs enable fast page switching. The expansion module also supports adaptive brightness adjustment with the IP phone display, offering a more user-friendly interaction.

High Expandability

Flyingvoice P20/P20P/P20G/P21/P21P/P22P/P22G/P23G/P23GW/FIP15G Plus IP phones can be fully equipped with up to three P2EXP Expansion Modules, while adding 216 additional buttons at most. The P2EXP connects to the P2X series phones via RJ12 port and the FIP15G Plus via the USB-C port. P2EXP is easy to install and can be fixed on desktop phones, making it an ideal solution for receptionists and administrative assistants to efficiently handle calls. Whether used in desktop deployments or other scenarios, the P2EXP offers flexible and efficient solutions.

> Package Content
- Flyingvoice P2EXP Color-screen
- Stand
- RJ12 Cable
- USB-A to USB-C Cable
- Screwdriver
- Screws
- Quick Start Guide
> Qty/CTN: 10 PCS
> N.W/CTN: 6.0 kg
> G.W/CTN: 6.598 kg
> Giftbox size: 195mm*148mm*47mm
> Carton size: 316mm*255mm*217mm

About FLYINGVOICE

Established in 2007, Flyingvoice is a global SME high-tech enterprise specializing in network communication terminal products. With research hubs strategically located in Bangkok, Hong Kong, and Shenzhen, and manufacturing facilities in Shenzhen and Vietnam, we ensure cutting-edge innovation and reliable production.

After more than 10 years of development, Flyingvoice has curated three product lines: IP Phones, POTS Replacement, and 5G FWA. Our mission is to provide SME customers with easily deployable and manageable network communication terminal products, along with voice and data communication solutions. We also offer the most comprehensive POTS Replacement solutions in the industry.

Flyingvoice products meet rigorous telecom-grade standards and are widely embraced by leading carriers globally. As of 2023, our POTS replacement products are favored by carriers in South Korea and North America, while IP Phones are extensively utilized in South Korea, India, and China. Notably, Flyingvoice's 5G FWA products have been mass deployed by carriers in China and India.

At the same time, Flyingvoice places great emphasis on supporting enterprise integration clients. With distribution and integration partners across major countries and regions worldwide, we've built a robust technical support system, guaranteeing efficient service delivery to our customers.
