	Port Negotiation (1000Mbps)	Green Blinking
	Port Negotiation (100Mbps)	Green Solid

Ports

| Number	Interface Description
1	2.5Gbps-LAN/PoE In & Support Connecting Additional More PoE Switches
2	1Gbps-LAN/PoE IN
3	1Gbps-LAN/PoE IN
4	1Gbps-LAN/PoE IN
5	1Gbps-LAN/PoE IN
6	1Gbps-LAN/PoE IN
7	1Gbps-LAN/PoE IN
8	2.5Gbps-UPLINK/PoE OUT

Installation Steps

Wall-mounted Installation

1. Use the supplied metal plate to align the 2 wall-mounting holes on the plate with the 2 holes on the device on the wall to mark and determine the wall-mounting position of the device.
2. Drill 2 screws into the marked position on the wall to leave a suitable length of screws to protrude from the wall for hanging the device.
3. Use the supplied screws to align the 2 screw holes on the left and right sides of the device with the holes on the metal plate, and then insert the screws into the plate to align it with the holes.
4. Attach the metal plate to the device and align the 2 wall-mounting holes on the plate with the screws on the wall, then pull down the device to secure it.

Wall-mounted Installation

Pole-mounted Installation

1. Wrap the clamp around the pole/column and insert the metal plate through the holes in the clamp
**2.** Tighten the clamp and screws to secure the device.

Pole-mounted Installation
